Choosing a Photographer

Choosing your Photographer will be dependant on number of factors -

Budget - How much can you spend and what value are you looking for ?

Location - Studio or on Location or both

Type of Shoot required - See my previous download

Is the photographer a specialist ?

Please peruse a photographers website to see their quality of work.

I am still surprised at the number of people that will book a photographer without looking at their work.

Only you can decide your budget and what value your photographer needs to provide.

What **SHOULD** a professional photographer provide at a minimum -

Time for the shoot

price with inclusions

Location

Length of shoot

Amount of images taken

Amount of Images delivered

Editing

How are the Images delivered - Dropbox, e-mail, DVD

What format are they delivered in - High Resolution, Jpegs, PSD,

What **MIGHT** a Professional Photographer provide -

hair and make up

Clothing

Props

Stylist
